"Being an International student was not easy, however at SSU, we always help each other, no matter what questions or problems you have, they will help or find you a solution, especially for international students.

It was a good surrounding with international classmates, from more than 20 nations, because we could share thoughts or discuss base on experiences of each culture, each country which is the best opportunity to know about doing business in this border-less economy. I need to admit that the first reason for choosing SSU was the affordable tuition, I did not expect much from this place. But after I had spent more time at SSU, I felt like it is my 2nd home. People there are great!! Really!!"

"In 2015, I moved with my family to California, to improve my English. Because of the increase of violence and corruption in Brazil, during the English program, me and my husband decided to apply for the Investor's visa (EB-5) to stay with our daughters in the USA. For that, I had to be brave enough to quit my job in Brazil as a Federal Judge. Because I had spent the last 15 years in the public service, I wasn't feeling confident to face the American market. So, I registered myself in the MBA at SSU. The green card was issued during the program, during which I learned how to work with my husband in our investments in real estate properties in the East Coast. As the final project in the MBA program, I developed a company to produce independent films: Flowerbud Entertainment LLC and launched it. By the time I graduated, a few months later, the company had already produced two short films (Famous Little Girls and Torment) and a featurette (On The Fence). These films not only have been awarded and screened worldwide in the film festival circuit, but they are also available to be watched at Vimeo on Demand and Amazon.com. I would like to thank the SSU's staff and the professors for the support in accomplishing this dream."
