## SSU ACCREDITATION NEWS

Secretary of Education Orders Restoration of ACICS as a Federally Recognized Accrediting Agency as of December 2016 and Outlines Next Steps in the Compliance Review Process

On Tuesday, April 3, 2018, the Secretary of Education issued an Order notifying ACICS that the U.S. Department of Education has restored ACICS's status as a federally recognized agency as of December 12, 2016. The Order comes in response to the recent ruling from U.S. District Judge Reggie B. Walton that the U.S. Department of Education violated the Administrative Procedures Act by "failing to consider various categories of relevant evidence" in its decision to withdraw ACICS' recognition as a nationally-recognized accreditor. The case was remanded back to the Secretary of Education.

Michelle Edwards, ACICS President, issued the following statement regarding the Order:

"We were gratified by the court's ruling requiring the Department to review evidence submitted by ACICS documenting many meaningful reforms implemented by the organization. And we appreciate the timely response by the Department, reinstating our recognition as of December 2016 and outlining the next steps in the compliance review process. The Department's decision ensures that students currently attending ACICS schools are not negatively impacted pending the Department's ongoing review process. In the last two years, ACICS has implemented significant reforms designed to address concerns, strengthen the accreditation process and, ultimately, enhance our ability to hold schools accountable for meaningful student outcomes. These efforts are comprehensive and ongoing, and we look forward to working with the Department to ensure we are not only in full compliance with current requirements but also in a position to become, over time, a leader among accreditors."

## WASCUC ACCREDITATION

Last year, Southern States University applied for Eligibility from the WASC Senior College and University Commission (WSCUC). In December 2017, WSCUC reviewed the application and determined that the University is eligible to proceed with an application for Candidacy and Initial Accreditation. A determination of Eligibility is not a formal status with the WASC Senior College and University Commission, nor does it ensure eventual accreditation. It is a preliminary finding that the institution is potentially accreditable and can proceed within five years of its Eligibility determination to be reviewed for Candidacy or Initial Accreditation status with the Commission. Questions about Eligibility may be directed to the institution or to WSCUC at [wascsr@wascsenior.org](mailto:wascsr@wascsenior.org) or (510) 748-9001.

Achieving "Eligibility" completes the first of three major phases in the regional accreditation process.

Note this is parallel and in addition to SSU's national accreditation held since 2010 from the Accrediting Council for Independent Schools and Colleges (ACICS).

# THIS MONTH'S FEATURED STUDENT!

## Patrick Puska

Southern States University was my first choice in choosing a college to study in. I was pleased that SSU specializes in graduate programs like the Master of Business Administration degree program, which is very close to my personal development. In addition, I was thrilled to discover that SSU welcomes international students from all over the world. SSU is located in California, a state associated with progress, economic development and innovation that offers opportunity for learning the most up-to-date approaches and tendencies in business activities. Despite all of my fears of living and studying abroad, in a foreign country, currently, I can state that I do not regret anything. Today, I am proud to be an MBA student at SSU, learning different aspects of business that are a part of the MBA multifaceted curriculum. So far, I've become acquainted with basics in Financial Accounting, Marketing, Statistics, Business Research and Quantitative Fundamentals, and there are other subjects ahead that I am looking forward to. I have no doubt about the priceless knowledge that I will receive upon my completion of this program. It will allow me to become proficient in multiple business aspects and relate it to the demands of our modern highly competitive world. To all current and prospective students, I would like to wish you to believe in yourself.

"I made friends with people from countries from all over the world such as Brazil, Thailand, the United States, and South Korea." SSU offers a diverse cultural atmosphere making SSU a really special place to study at."

## SSU ALUMNI HIGHLIGHT

One day while working in my home country, I decided the best way to have a better future for me and for my family was to first improve my English and further my education. It did not take long for me to decide and execute my new plans. Some have said this decision was a big risk, but I knew it would result in a lot of rewards and it did.

I arrived in San Diego on 4th of July 2010. Before I arrived I did not know I arrived on one of the most important days of the year. Today, the 4th of July is not only a celebration of Independence Day but also my arrival date and the day my life completely changed. When I first came to the United States of America, I attended a language school to improve my English. Within a couple of months, I decided not to spend more time on English. Instead, I decided to pursue my degree, which led me to the Southern States University (SSU) MBA program.
